

COMMON GROUND TREE PLANTING POLICY

Board of Directors amended February 13, 2018

Raintree Lake Property Owners Association (RLPOA) encourages the planting of trees on the Common Ground to enhance the beauty of our community and improve the general environment. **Planting of trees can be done through the community's Adopt-A-Tree program or by individual residents. The procedures are as follows:**

1. Notify the office of request, and type of request (Adopt-A-Tree or individual purchase).
2. Select the area where you wish to plant the tree(s) and be willing to talk with neighbor about the tree and location. The office and Common Ground Committee must approve your selection of tree as well as the planting location to insure there are no unknown factors that would affect the planting. **Written approval must be obtained from the Common Ground Committee before anything is planted on the Common Ground. Approval will not be granted for tree planting requests if the common ground is not adjacent to the homeowner's property making the request.**
3. Select a variety of tree from the following list:

FLOWERING TREES

Green Hawthorn "Winter King"
Redbud, Eastern

SHADE TREES

Maple, Red (Sunset)
Maple, Sugar
Parrotia, Persica
Oak, Swamp White
Oak, Red

NOTE: *The goal is to insure tree varieties introduced to Raintree are disease resistant, insect resistant, do not have noxious odors or fruit or leaves that are toxic or a nuisance and generally improve the overall appearance of the community. Shrubs are generally not acceptable for planting in the Common Ground. Mature tree photos are available at the office for resident review. Other trees may be acceptable, but if you wish to plant another variety not on the approved list the Common Ground Committee must approve the request.*

4. Trees must be planted at least three (3) feet inside the Common Ground boundary. It is the responsibility of the individual planting the tree to insure excavation for the planting will not impact underground utilities. Trees must be planted so as to allow ten (10) feet of clearance from other trees, shrubs, above ground utility service installations, lake shore, drainage ditches, buildings or any other stationary object that would impede the passing of a tractor drawn mowing device.
5. When all of the above conditions have been met, you may proceed with the actual planting of the tree.
6. If a resident receives a tree through the community Adopt-A-Tree Program, the resident agrees to aid RLPOA in keeping the newly planted/replaced common ground tree alive, by watering the tree for a minimum of two (2) years.
7. Before any tree is removed from the Common Ground, you must check with the Common Ground Committee.
