  - New Members Elected: Brian Mitchell, John Mulvihill

- How to Measure Boats, and who should measure?
  - Noted that issue is mostly with wake and surf boats, where there is not a definitive point where the hull stops, and the platform begins
  - Concerns that not everyone is interpreting the rules the same
  - **Need to come to a collaborative consensus with the lake committee and the office (San, and Tim, want to meet with Josh from the office)**
  - Goal to tighten these rules by the beginning of next season
- Float under the boat ramp courtesy dock – No updates with Williams. Tim to follow up
- Courtesy Docks – Noted that there is exposed metal that could damage boats
- Stakes 150 off dam at each end to mark area to tie up
  - Stakes are up as suggested
- Raintree boating age rule:
  - Missouri rule is 14, Raintree is 15.
  - **Tom motions to keep rule the same (age 15), Dan seconds, 8 for keeping the operating age at 15, 1 abstain, 1 opposed. Motion passed.**

**Round Table:**

Tom: Inconsistent enforcement of the boat sticker rules. Some people have just been warned, some people have been escorted off the lake.
