

Raintree Lake Committee Meeting Minutes

8/5/2024 at the DUCK POND location

Attendees: Tom Tucek, Bob Burasco, Scott Chambers, Dan Stacks, Rich Richardson, San LaPoint, and John Mulvihill.

7:04PM: Meeting called to order

Scott motioned to accept minutes from previous meeting, John seconded, unanimous approval

Unfinished Business

1. Lift Replacement Guidelines Questions & Feedback (numbers correspond to Guideline numbering):
 - 1) No feedback
 - 2) What is the manufacturer's recommended boat lift capacity for our single well docks as designed?
 - 3) Are the docks designed and intended for pontoon boats? The concern here is primarily with wind drag.
 - 3) Safety concern regarding longer pontoon boats sticking out into cove with exposed engine and prop.
 - 4) For subsection d. we suggest replacing "new" with "different"
 - 4) For subsection d. we recommend Raintree fund the moving of the boat lift.

2. Updates on Board Meeting and Work Session Provided by San

New Business

Next meeting will focus on categorizing violations (level 1, 2, 3, or 4) for Section VIII of the Lake Regulations

Round Table

John noted safety concerns for boat passengers seen riding on the rear facing seats of surf boats, where there is no safety rail or anything to prevent the passengers from falling out.

San noted that the east ramp lane has damage that needs to be repaired, and this should be a budget item for next year if it is not addressed beforehand.

San noted that carts used to transport non-motorized crafts often to not have the required stickers

Adjournment: 8:33PM, Scott motions to adjourn, San seconded, unanimous approval
